In besten Händen, dem Leben zuliebe.

Self-determined birth in an atmosphere of trust and confidence

For many years, the Obstetrics department at the Evangelisches Amalie Sieveking Krankenhaus has provided sensitive, individually tailored support with childbirth. As a maternity department, we are happy to welcome women from 37 weeks of pregnancy onwards, with the exception of women with insulin-dependent diabetes. We provide paediatric healthcare and support in cooperation with the Katholisches Kinderkrankenhaus Wilhelmstift.

Our four fully equipped delivery suites offer ample space and assistance for alternative birthing positions, while a birthing pool is available for water births. Our team of midwives and doctors will be at your side throughout labour and the birth, supplemented by nurses, paediatric nurses, breastfeeding consultants and paediatricians to care for you and your baby on the postnatal ward.

As Germany's first baby-friendly hospital, we have followed the code issued by the Baby-Friendly Hospital Initiative for over 30 years. We help you to bond with your baby and offer breastfeeding support as standard, with comprehensive support from our expert team.

Our goal is to make your birth experience a positive one, so that you feel comfortable and confident when you take your baby home.

Our services

Information evening for parents-to-be

First Tuesday of every month in person, third Thursday of every month online, starting at 7pm.

Register via our homepage:

Register your due date

Appointments available from 25th week of pregnancy. Call us on +49 (0)40 644 11-303, Mon-Fri 8am-3pm.
